

Stephanie Franco is a savvy marketer, talented business woman and just an overall great person. I met Stephanie in 2016 when she was a keynote speaker for the Collin County Black Chamber of Commerce's expo and from there, she and I have partnered on multiple community events. She was my moderator in February 2017 at Texas Woman's University College of Business Graduate Career Pathways Showcase and a guest speaker for my classes. I believed in her vision so much that I volunteered at many of her non-profit Women Entrepreneur Resource & Educational Community (WERE) events. I watched and worked beside Stephanie as she balanced being a wife, mother, non-profit guru and small business owner. Her tenacity, wisdom, knowledge, professionalism and integrity made collaborating with her a pure joy and valuable experience.
